

ALLEN CHRISTOPHER

Production Engineer | Manufacturing Systems | Industrial Digitalisation

Gothenburg, Sweden | alenchristopher4321@gmail.com | +46 793560475 | LinkedIn: [Allen Christopher](#)

PROFESSIONAL SUMMARY

Production Engineer with a Master's degree from Chalmers University and over four years of combined experience in manufacturing, supply chain, digital transformation, and business process optimization. Experienced in improving operational performance through process automation, Lean principles, SAP, Power BI, Celonis, and cross-functional collaboration. Passionate about Industry 4.0, production systems, continuous improvement, and data-driven manufacturing.

CORE COMPETENCIES

Manufacturing: Production Systems , Lean Manufacturing , Process Improvement , Continuous Improvement

Simulation & Digital: Siemens Plant Simulation , Rockwell Emulate3D , Digital Twins , Industry 5.0

Operations & Analytics: SAP , Power BI , Celonis , Advanced Excel

Business & Collaboration: Business Analysis , Stakeholder Management , Agile Delivery , Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Digital Process Automation & Operations Support | Nouryon | Gothenburg *Sept 2025 – Feb 2026*

- Implemented an OCR-based purchase order automation solution, reducing manual processing across European document formats.
- Coordinated UAT between business users and technical teams to ensure successful deployment and user adoption.
- Supported digital transformation initiatives by improving workflow automation and process standardisation across operational teams.

Supply Chain & Process Support | Nouryon | Gothenburg

Summer 2025

- Managed customer order planning aligned with demand forecasts, supporting on-time delivery targets using SAP and Celonis for live process visibility
- Supported automation of order placement process through data validation and gap analysis, reducing manual intervention in routine order cycles
- Developed Power BI dashboards tracking 10+ operational KPIs, improving visibility into supply chain performance and supporting faster operational decision-making.

Digital Solutions Developer (Salesforce Platform) | Speridian Technologies |

India & Singapore 2021 – 2024

- Delivered CRM and digital transformation solutions for multinational clients.
- Performed business analysis, requirements gathering, and functional documentation
- Managed testing, deployment, stakeholder communication, and Agile project delivery.
- Received Spot Awards for project ownership and customer satisfaction

SELECTED ACADEMIC PROJECTS

Master's Thesis: Human-Centric Digital Twin for Manufacturing

2025 – 2026

- Developing a digital twin integrating real-time data and simulation to enhance operator decision-making and production performance

Assembly Workstation Redesign — 18 to 85 Units/Day Output Increase

2024–2025

- Redesigned workstation applying Lean, ergonomics, and Siemens Plant Simulation, increasing daily output from 18 to 85 units within ergonomic and cost constraints.

Optimising Production with Discrete Event Simulation

2024–2025

- Built a DES model in Siemens Plant Simulation to identify top bottlenecks and optimise buffer sizes, resource allocation, and throughput

Compactable Boiler — Additive Manufacturing (DfAM)

Jan–Mar 2025

- Designed and scaled prototype from FDM to PBF-LB (SS 316FR) using SolidWorks, Ansys Granta, and Materialise Magics

EDUCATION

Master's in Production Engineering | Chalmers University of Technology |

Gothenburg 2024 – 2026

- Key Courses: Manufacturing Processes, Production Systems, Simulation of Production Systems, Production Management.
- Board Member — Chalmers Entrepreneurship Society.

Bachelor's in Mechanical Engineering | APJ Abdul Kalam Technological University |

India Graduated 2021

- Final Year Project: Crash Guard Modification for Motorbike Safety — FEM analysis and 3D modelling.

TECHNICAL SKILLS

CAD / CAE: SolidWorks, AutoCAD, Ansys

Simulation & Digital Manufacturing: Siemens Plant Simulation, Rockwell Emulate 3D, MATLAB, Simulink, Materialise Magics, Simplify3D

PLM & Digital Thread: Product Lifecycle Management, BOM management, digital thread principles (academic — Chalmers thesis)

Data & Operations: SAP, Celonis, Power BI, Excel (Advanced)

Methodologies: Lean, Six Sigma (White Belt), PDCA, Ergonomics, Value Stream Mapping, FEM, Industry 5.0

CERTIFICATIONS & ACHIEVEMENTS

Certifications: ASNT NDT Level II | QA/QC Mechanical | MATLAB Onramp | Salesforce Admin | Lean Six Sigma White Belt

Achievements: Research Paper — National Conference on Emerging Trends in ME (2021) | Young Innovators Program (YIP 2020), State Level | Patent Application (First Round Cleared) — KSCSTE
